

Electric Outdoor Equipment

rebate program

Save
up
to **\$50**

on new outdoor
equipment

Did you know that electric lawn equipment has seen big improvements in recent years? How about a push mower that can tackle 3,000 sq. ft. in a single charge? That exists!

Your electric cooperative is offering rebates on a variety of electric outdoor equipment. Products may include: electric lawnmowers, leaf blowers, string trimmers, chainsaws, snowblowers, roto-tillers and power washers – up to \$50 toward the cost of new equipment. Please call us for more information about qualifying equipment.

Whether you search online or stop by your local hardware store, we want you to find equipment to keep your outdoor areas well-maintained for years to come. When shopping, look for manufacturers who use lithium-ion batteries as they provide the power you expect and charge quickly. If you need a new push mower, be sure you choose a model that runs on at least 36 volts.

The brand you choose is up to you, as well as where you make the purchase – we trust you know what you need and respect where you want to shop.

Why go electric – beyond the savings this incentive provides? You can say goodbye to gas cans and mixing two-cycle fuel. With electric equipment, all you have to do is keep your battery packs charged. This incentive will be offered on a first-come, first-served basis.
