

# Residential HVAC

Did you know most people spend up to 48% of their energy bills on heating and cooling, making that the largest energy expense in most homes? Upgrading your HVAC system to a newer energy-efficient heat pump system may seem expensive, but when you factor in the lower running cost, less maintenance and longer lifespan, you will see a quicker return on your investment and save money for many years. For more information on heat pumps, be sure to visit [WhyElectrify.com](http://WhyElectrify.com).

We understand cost is always a factor when upgrading your equipment so #company\_name# would like to help you with that by providing a small incentive. Simply fill out the application in its entirety and send it in with your AHRI certificate and invoice noting manufacturer/brand, model #, serial # and cost of your new heat pump.

We also suggest checking out Indiana's Home Energy Rebates webpage for more information on Home Efficiency Rebate Program.

[www.in.gov/oed/grants-and-funding-opportunities/homeowner-incentives/](http://www.in.gov/oed/grants-and-funding-opportunities/homeowner-incentives/)

## To Qualify:

- Must be installed in a home served by Utilities District of Western Indiana REMC.
- Heat pumps are for whole-home installations only with exception of the Mini-Split Heat Pumps.
- SEER2 & HSPF2 ratings must be obtained from the AHRI certificate.
- An AHRI Certificate must accompany the application and invoice to be qualified. You can obtain the AHRI certificate from your contractor or from the manufacturer.
- Limit of two (2) rebates allowed per primary residence per useful life of rebated equipment.
- Submission for rebates must be within 90 days of installation in the same calendar year.
- Incentive amount can not exceed 50% of equipment cost.
- Please review the complete list of terms and conditions following the application.

## Incentive:

### Air Source and Dual Fuel Heat Pump

**Tier 1** **\$300**

SEER2 rating 14.3 – 15.3  
HSPF2 rating ≥ 7.5

**Tier 2** **\$400**

SEER2 rating 15.4 – 17.2  
HSPF2 rating ≥ 7.5

**Tier 3** **\$500**

SEER2 rating 17.3 & up  
HSPF2 rating ≥ 7.5

### Multi-Zone Mini-Split Heat Pump (1 outside unit, 2+ inside units) **\$500**

SEER2 rating ≥ 17.3  
HSPF2 rating ≥ 7.5

### Single-Zone Mini-Split Heat Pump (1 outside unit, 1 inside unit) **\$300**

SEER2 rating ≥ 17.3  
HSPF2 rating ≥ 7.5

### Geothermal Heat Pump

No minimum SEER2 rating **\$2,000**
